

I am responding on behalf of K-Love radio. It is the only Christian radio station in this area, that I have access to listen to at this time. This area needs some positive music for those of us who believe and appreciate this form of entertainment. I enjoy listening to it as I drive and am thankful that I am able to use it as a tool to bring some joy into others lives who may be passengers in my vehicle. Should K-Love be displaced by an LPFM broadcaster I am afraid that it would be of a substance that is offensive to myself and to others. There are so many broadcasters that have no/or little moral values and our youth really need something to listen to besides the norm. With so many crimes, alcoholism, drug addictions, child abductions, and others, being committed it is very important that we have some form of positive broadcasting to try to offset the negative things being aired. Even though some people do not believe in Jesus Christ, there are still many that do, and need the ability to enjoy broadcasting that reflects our beliefs. I do not listen to the other stations, and if someone does not like Christian music, they do not have to listen to it, either. You should allow people the choice of making the decision of what they choose to listen to. It should not be a government decision. Thank you for your attention to this matter.
